(MSDS)

Printing date 03/12/2020

Version - No. 2

Reviewed on 03/12/2020

## 1 Identification

- **Product identifier**
- **Trade name: CALORIVAC® C**
- **Article number:**  
CALORIVAC® C  
Parts / granulated material (> 100 µm)
- ® registered trademark of VACUUMSCHMELZE GmbH & Co. KG
- **Material Safety Data Sheet - no.:** IB131
- **Application of the substance / the mixture**  
Magnetocaloric material, e.g. Refrigerators, Freezers, Air conditioning equipment, heat pumps, energy conversion
- **Details of the supplier of the safety data sheet**
- **Manufacturer/Supplier:**  
VACUUMSCHMELZE GmbH & Co.KG  
Grüner Weg 37  
D-63450 Hanau
- datasheet@vacuumschmelze.com
- **Information department:** Environmental Protection Department
- **Emergency telephone number:**  
Tel. no.: (\*\*49) 6181/38-0  
Emergency tel. no.: via (\*\*49) 6181/38-0

## 2 Hazard(s) identification

- **Classification (substance or mixture)**  
Classification according to Regulation (EC) No 1272/2008 (CLP-Regulation):  
Not applicable  
Our semi-finished and finished products constitute manufactured articles under the terms of the REACH Regulation (EC) No. 1907/2006.  
For articles there is no obligation to classify acc. to CLP -Regulation.
- **GHS label elements**  
Labelling according to Regulation (EC) No 1272/2008 (CLP-Regulation):  
Not applicable
- **Additional VAC information:**  
**In the case of dust-producing processing, we recommend observance of the following warnings :**
- **Hazard statements**  
May cause allergy or asthma symptoms or breathing difficulties if inhaled.  
May cause an allergic skin reaction.  
May cause cancer. Route of exposure: Inhalation.  
May damage fertility or the unborn child.
- **Precautionary statements**  
Do not breathe dust.  
Use personal protective equipment as required.  
If on skin: Wash with plenty of water.  
If inhaled: If breathing is difficult, remove person to fresh air and keep comfortable for breathing.  
If exposed or concerned: Get medical advice/attention.  
If skin irritation or rash occurs: Get medical advice/attention.  
If experiencing respiratory symptoms: Call a poison center/doctor.  
Wash contaminated clothing before reuse.
- **Other hazards**
- **Results of PBT and vPvB assessment**
- **PBT:** Not applicable.

### 3 Composition/information on ingredients

**• Chemical characterization:**
**• Description:** La-Fe- Alloy (Parts / granulated material)

**• Dangerous components:**

 The classifications given below reflect the classification of each pure substance respectively and are intended for information only

The legal classifications of the pure substances (harmonized classification according to substance list of the Annex VI of the CLP Regulation) got complemented, insofar as additional substance-specific information from accessible data sources (e.g. TRGS 905, toxicological studies) for health hazards and / or physical hazards are available.

|   |   |       |
|---|---|-------|
| CAS: 7439-89-6<br>EINECS: 231-096-4                               | iron (compact form)   | rest% |
| CAS: 7440-48-4<br>EINECS: 231-158-0<br>Index number: 027-001-00-9 | cobalt<br>⚠ Resp. Sens. 1, H334; Carc. 1B, H350; Repr. 1B, H360; ⚠ Acute Tox. 4, H302; Skin Sens. 1, H317 | ≤10%  |
| CAS: 7440-21-3<br>EINECS: 231-130-8                               | silicon   | <6%   |
| <b>• NON-hazardous Ingredients</b>                                |   |       |
| CAS: 7439-91-0<br>EINECS: 231-099-0                               | lanthanum   | <20%  |

**• Additional information:**

For the wording of the listed hazard phrases refer to section 16.

**Additional information for Cobalt:**

See also Chapter 11

### 4 First-aid measures

**• Description of first aid measures**
**• After inhalation:**

 If metal vapours or solid dusts have been inhaled:  
Get the affected person out in the fresh air and call a doctor.

**• After skin contact:**

Foreign bodies which have penetrated the skin must be removed and the wound cleaned thoroughly.

**• After eye contact:**

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

**• After swallowing:** Consult a doctor if the symptoms persist.

**• Information for doctor:**
**• Most important symptoms and effects, both acute and delayed** No further relevant information available.

**• Indication of any immediate medical attention and special treatment needed**

No further relevant information available.

## 5 Fire-fighting measures

- **Extinguishing media**
- **Suitable extinguishing agents:**  
Non-combustible.  
Extinguishing agents must be adapted to the environment.
- **Special hazards arising from the substance or mixture**  
Formation of toxic smoke / fumes (metal / metal oxides) is possible during heating or in case of fire. Do not inhale fumes.
- **Advice for firefighters**
- **Protective equipment:** Do not inhale fumes.

## 6 Accidental release measures

Accidental release of dusts and vapours which are damaging to health can be ruled out.

- **Personal precautions, protective equipment and emergency procedures** No special measures required.
- **Environmental precautions:** No special measures required.
- **Methods and material for containment and cleaning up:** No special measures required.
- **Reference to other sections**  
See Section 7 for information on safe handling.  
See Section 8 for information on personal protection equipment.  
See Section 13 for disposal information.

## 7 Handling and storage

- **Handling:**
- **Precautions for safe handling**  
No safety precautions are necessary in the delivered form.  
The appropriate industrial and environmental safety measures must be taken for processing steps which cause dust (see also section 8):  
Prevent formation of dust.  
Ensure good ventilation/exhaustion at the workplace.  
Take note of emission threshold.
- **Information about protection against explosions and fires:** No special measures required.
- **Conditions for safe storage, including any incompatibilities**
- **Storage:**
- **Requirements to be met by storerooms and receptacles:** No special requirements.
- **Information about storage in one common storage facility:** Not required.
- **Further information about storage conditions:** None.
- **Storage class:** Not applicable
- **Specific end use(s)** No further relevant information available.

## 8 Exposure controls/personal protection

- **Additional information about design of technical systems:**  
Provide suction with filtering for good airing and ventilation of the work area during processing steps which cause dust. Air return is only permitted in exceptional cases.  
If industrial vacuum cleaners are used, these must have dust class H (DIN EN 60335-2-69).  
Suitable breathing apparatus must be used during repair and maintenance work to suction systems, especially

**• DNELs**

DNELs for OSH purposes

In Germany, occupational exposure limits (AGW) of the Technical Rules on Hazardous Substances (TRGS) 900 continue to constitute workplace atmospheric limit values that are binding upon employers. Should no AGW and for example no maximum workplace concentration (MAK value) of the German Research Foundation (DFG) be available, the employer must also consider the DNEL during risk assessment.

• **Additional information:**

The lists that were valid during the creation were used as basis.

GESTIS International Limit Values:

<http://www.dguv.de/ifa/Gefahrstoffdatenbanken/GESTIS-Internationale-Grenzwerte-für-chemische-Substanzen-limit-values-for-chemical-agents/index.jsp>

• **Exposure controls**

• **Personal protective equipment:**

• **General protective and hygienic measures:**

Keep away from foodstuffs, beverages and feed.  
Wash hands before breaks and at the end of work.  
Store protective clothing separately.  
Do not eat, drink, smoke or sniff while working.

• **Breathing equipment:**

In the case of dust formation (limit value exceeded), breathing apparatus must be worn.  
Time limits for wearing must be observed.

Breathing mask, apparatus with particle filter P2 or P3

According to the guideline "42 CFR Part 84 Respiratory Protective Devices" the following respiratory masks / partical filter are recommend: N 95 or N 99

• **Protection of hands:**

Avoid repeated and prolonged contact with the skin, use protective gloves.

Preventive skin protection by use of skin-protecting agents is recommended.

• **Material of gloves**

Experience has shown glove materials polychloroprene, nitrile caoutchouc, butyl caoutchouc, fluoride caoutchouc and polyvinylchloride to offer sufficient protection.

• **Penetration time of glove material -**

• **Eye protection:**

In the event of larger quantities of dust:  
Wear protective glasses / EN 166, poss. with side protection.

• **Limitation and supervision of exposure into the environment**

The legal issue values and limitations are to be paid attention!

## 9 Physical and chemical properties

• **Information on basic physical and chemical properties**

• **General Information**

• **Appearance:**

**Form:** Parts / granulated material

**Color:** Metallic

• **Odor:** Metallic

• **pH-value:** Not applicable.

• **Change in condition**

**Melting point/Melting range (approx):** 1,180 °C

• **Auto igniting:** Not applicable

## 10 Stability and reactivity

- **Reactivity** No further relevant information available.
- **Chemical stability**
- **Thermal decomposition / conditions to be avoided:** No decomposition if used according to specifications.
- **Possibility of hazardous reactions**  
Hydrogen is released in contact with acid which can cause explosive gas mixtures.
- **Conditions to avoid** No further relevant information available.
- **Incompatible materials:** No further relevant information available.
- **Hazardous decomposition products:** No dangerous decomposition products known.

## 11 Toxicological information

- **Information on toxicological effects**
- **Acute toxicity:**
- **LD/LC50 values:**

The following applies for the **pure substances**:

### 7440-48-4 cobalt

|   |          |                 |
|---|----------|-----------------|
| Oral  | LD50     | 550 mg/kg (rat) |
| Inhalative  | LC50/4 h | mg/l (rat)      |
| siehe zusätzlicher toxikologischer Hinweis / see additional toxicological information |          |                 |

- **Primary irritant effect:**
- **on the skin:** No irritant effect.
- **on the eye:**  
Irritation of the eyes in the case of massive direct contact will be mainly due to mechanical effects depending on the grain size.
- **Sensitization:** No sensitizing effects known.
- **Additional toxicological information:**

Subsequent users should be aware of the fact that Co-metal fine powder are classified as "acute toxic if inhaled, Category 1" (no legal classification); LC50 4hr ≤0,05 mg/l.

In case the subsequent use of product generates fine Co-metal particles (e.g. dust), protection measures such as described in Chapter 7 and 8 of this information sheet must be applied.

When used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided to us.
